Country of origin	China
Max no. per pallet	400

The Global Recycling Standards (GRS) is an internationally recognised standard that provides companies with a tool to verify one or more specific materials in a product. To receive GRS certification products must be made up of at least 20% of certified recycled products and be both ethically and responsibly produced using environmentally friendly practices in production.

The Shield Mini RPET bags have been TC certified confirming that production processes and materials have been audited to validate that the percentage of recycled materials has been measured and meets all requirements set out in the GRS.
